01. ArchitectureDiagram

Application components and their dependencies

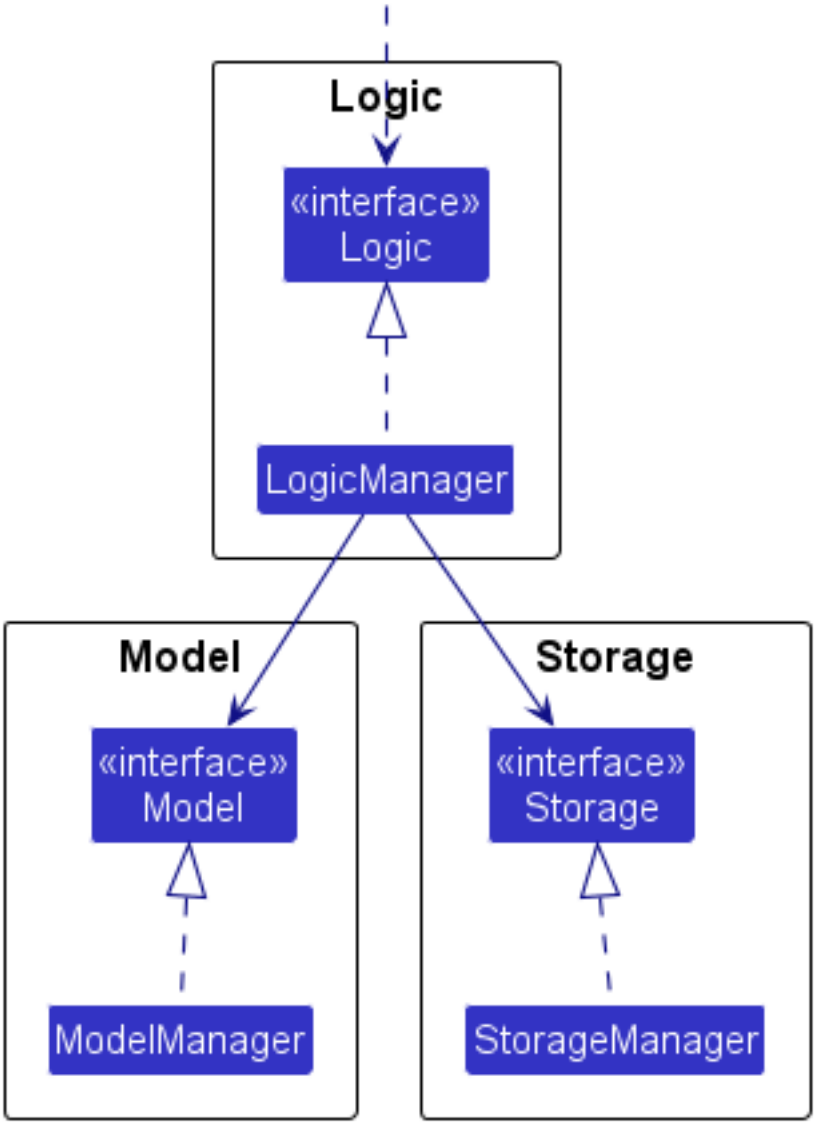

02. ArchitectureSequenceDiagram

Successful deletion across UI, Logic, Model, and Storage

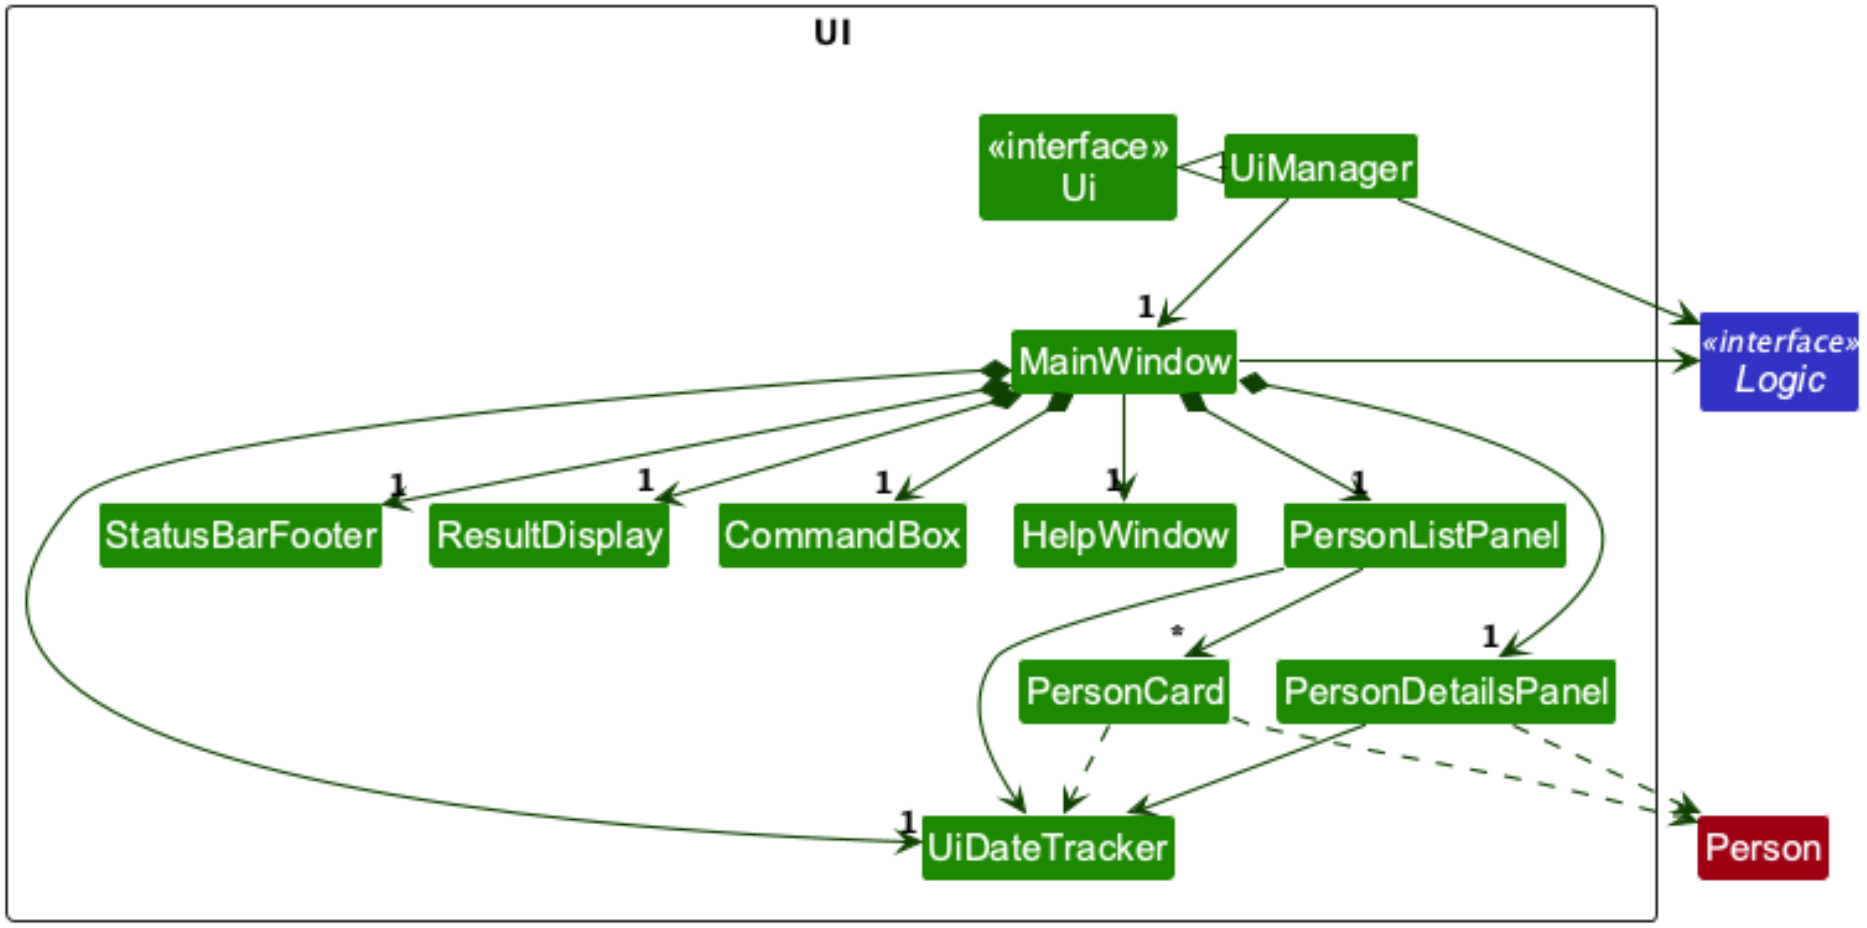

03. ComponentManagers

LogicManager dependencies on the Model and Storage interfaces

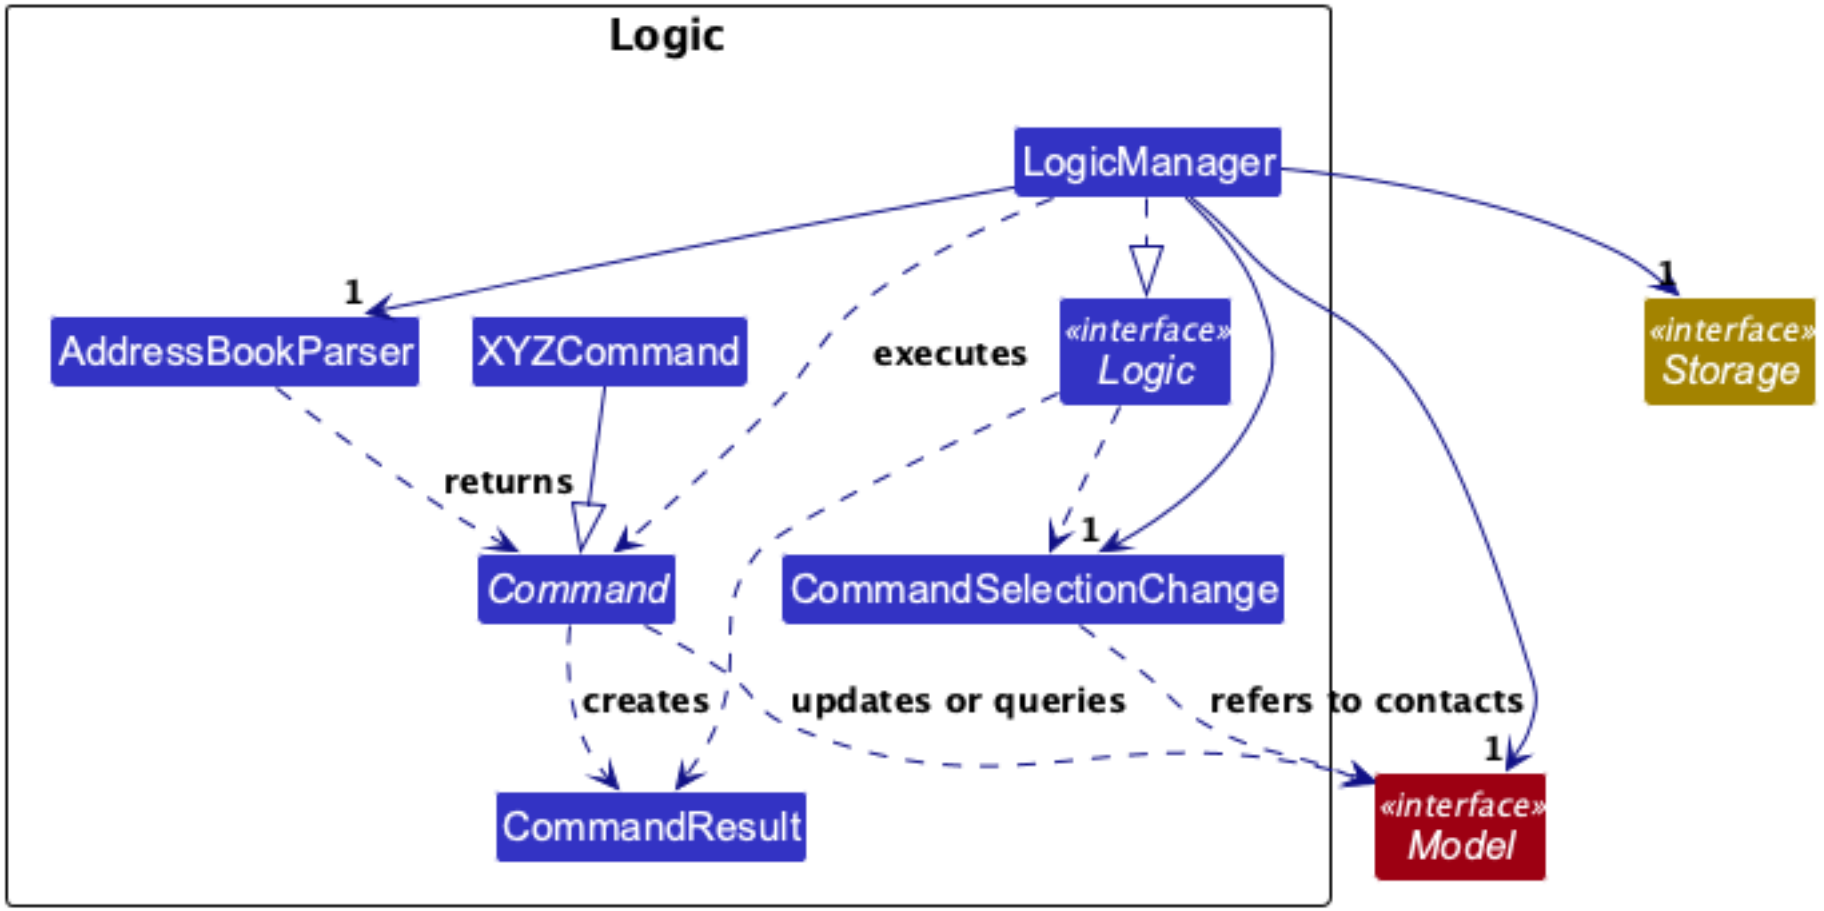

04. UiClassDiagram

UI window parts and their shared date tracker

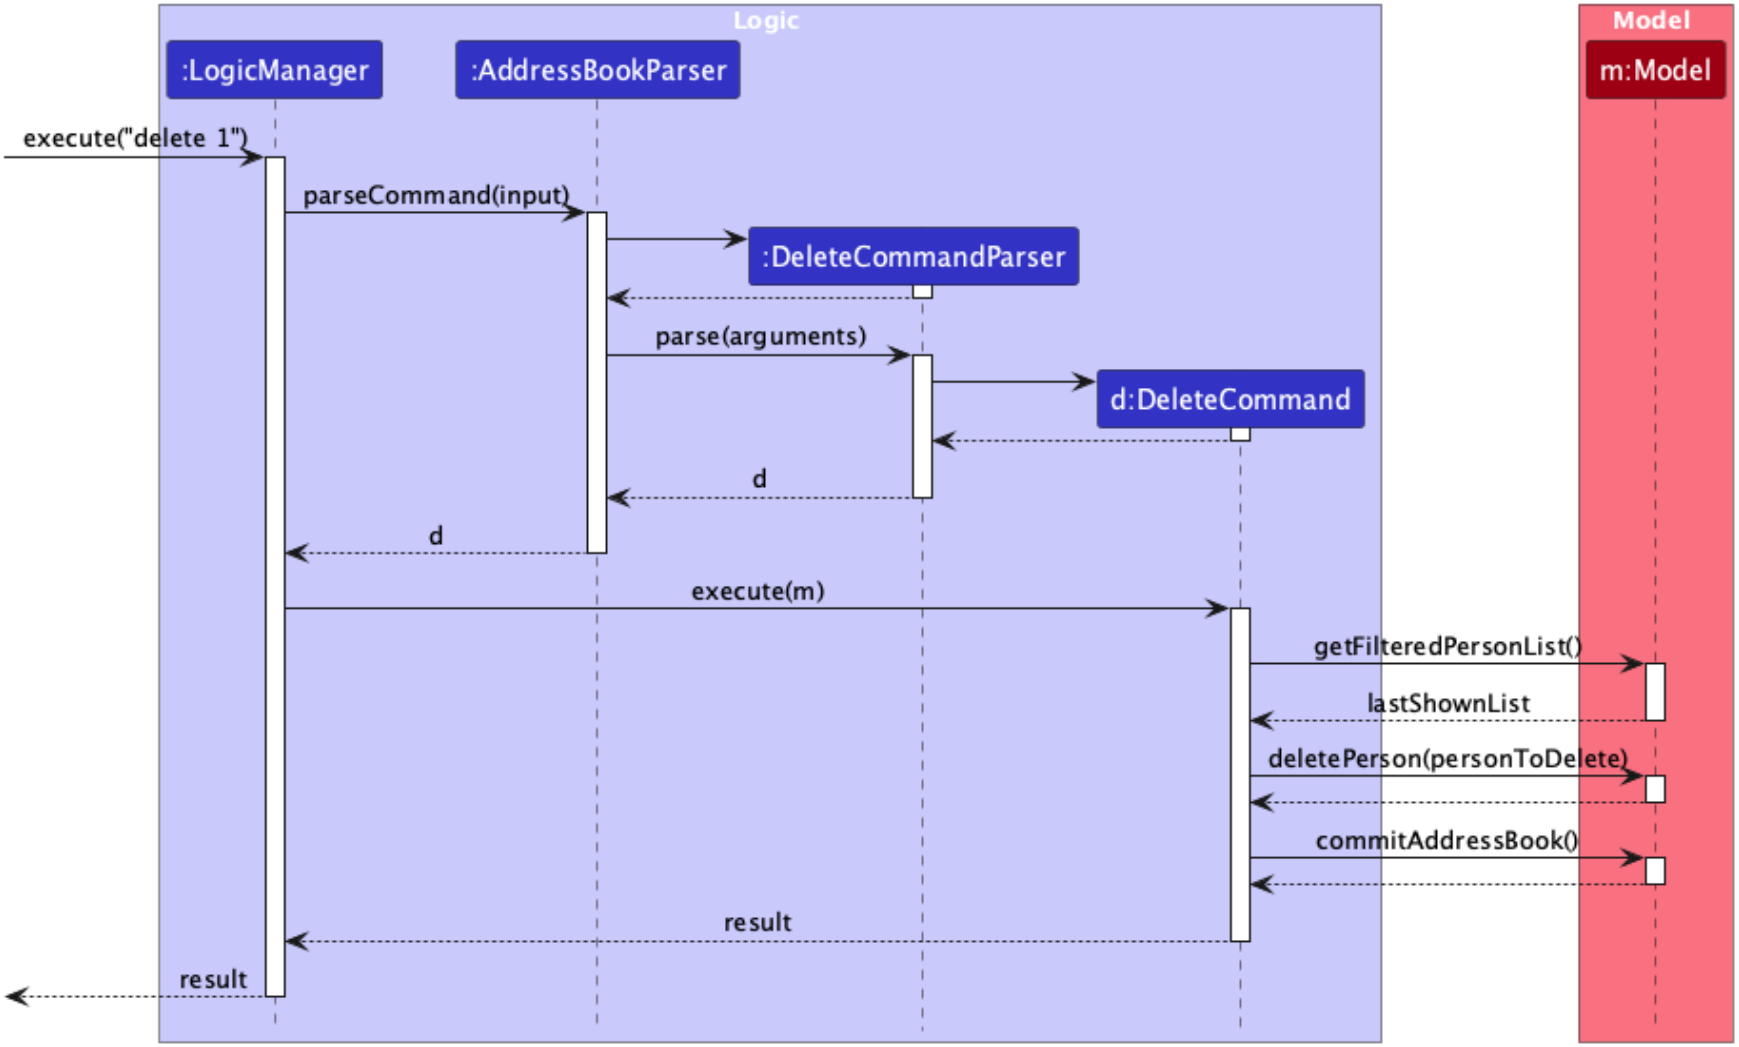

05. LogicClassDiagram

Logic entry point, command results, and selection metadata

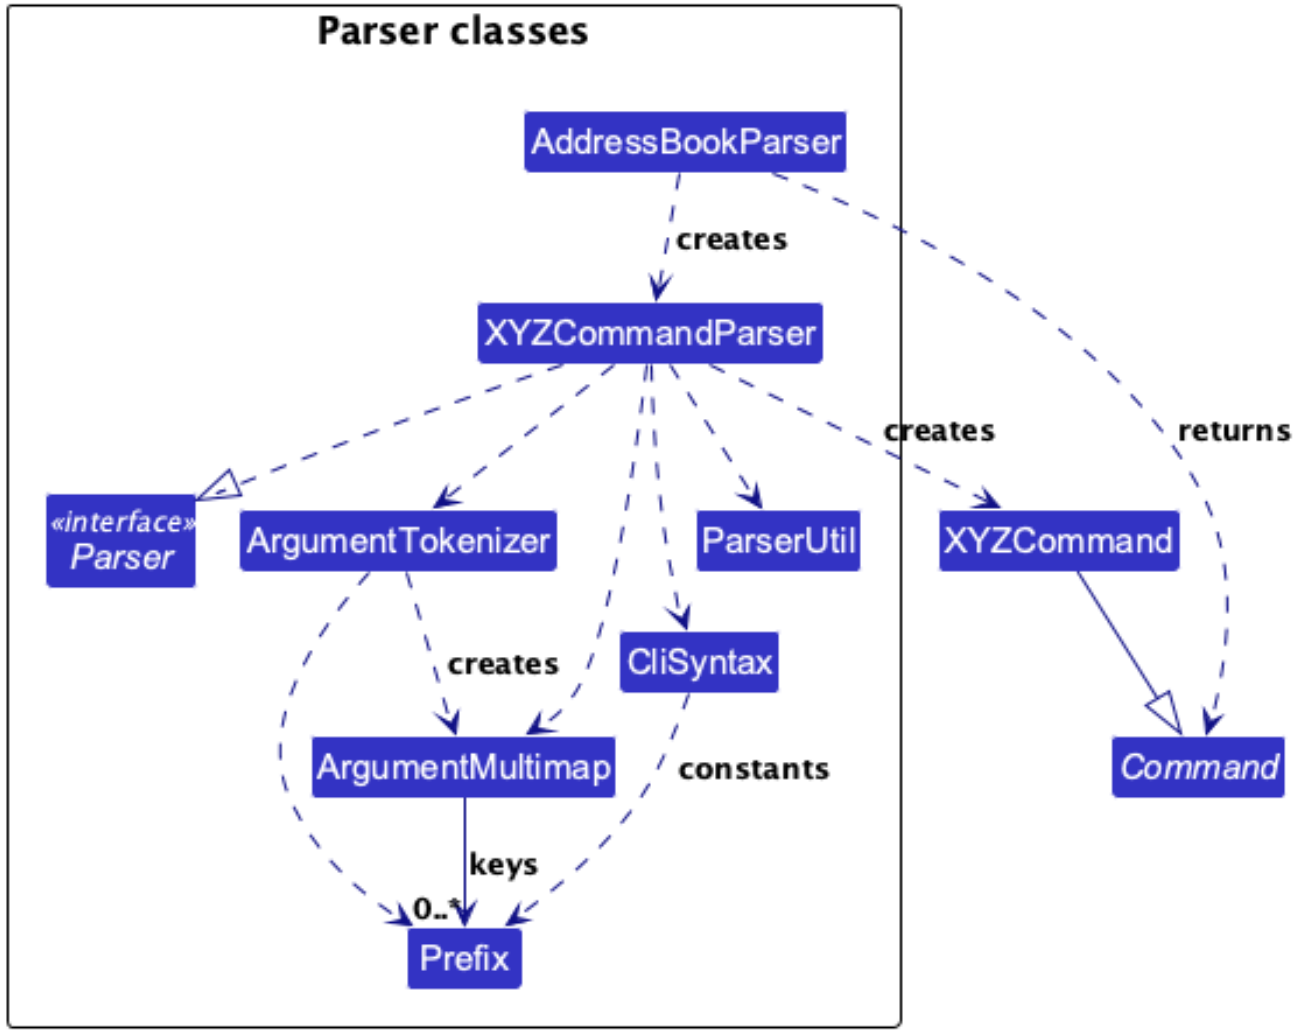

06. DeleteSequenceDiagram

Successful delete parsing, contact removal, and history commit

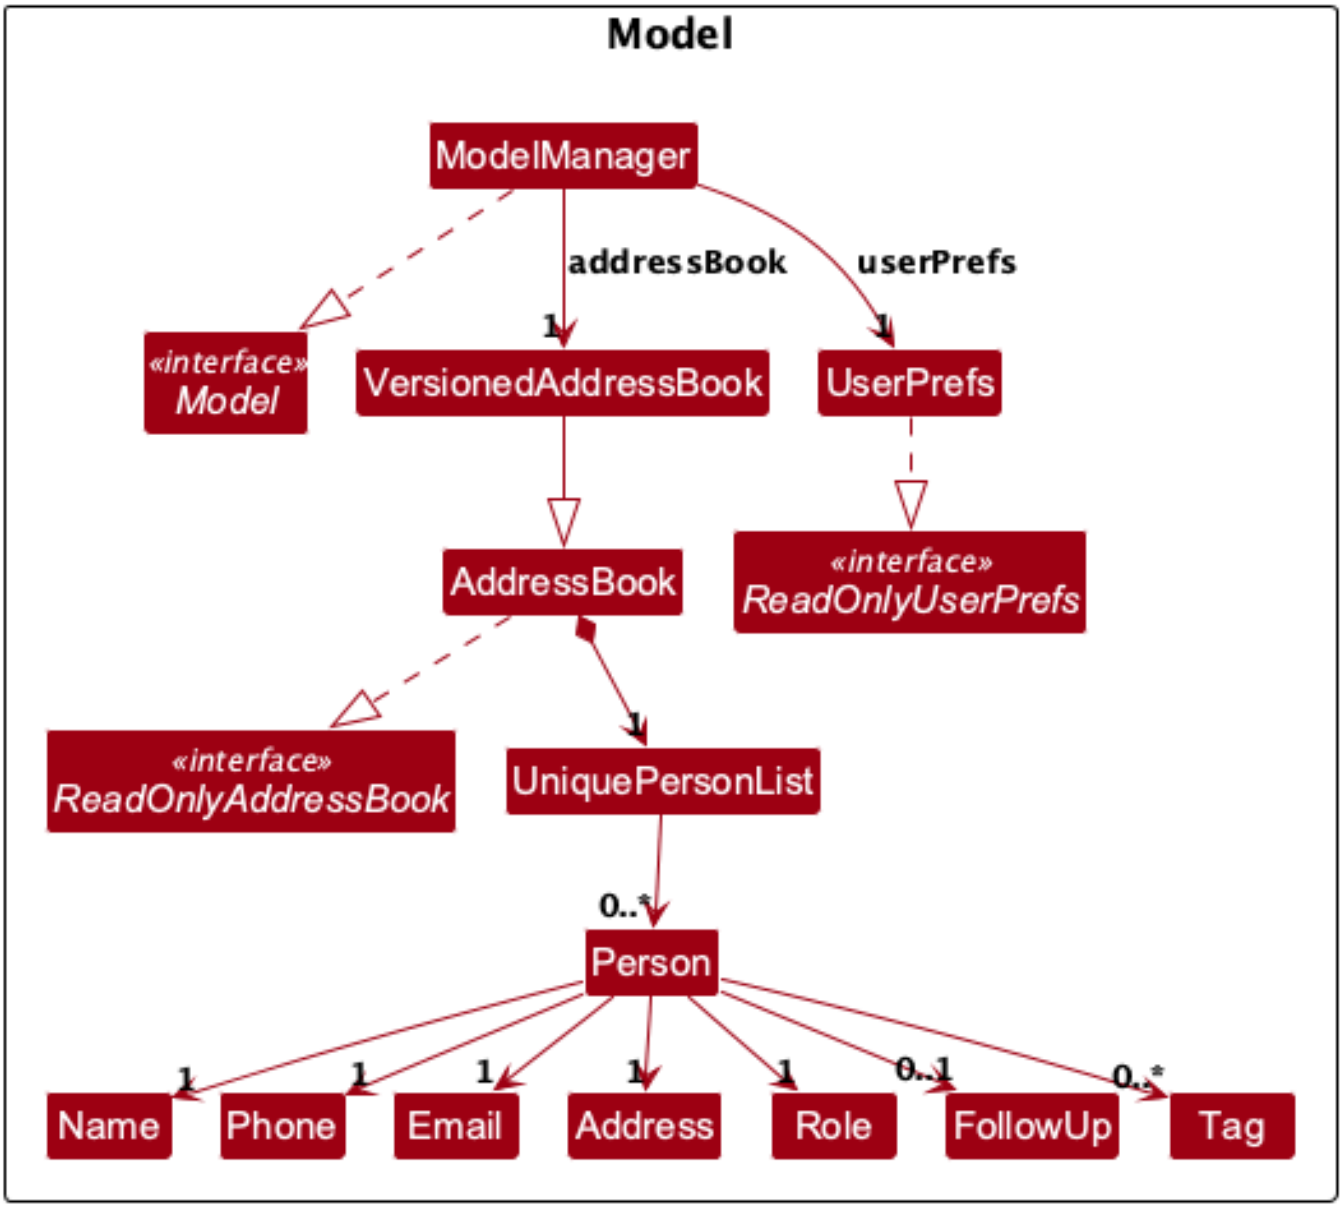

07. ParserClasses

Command parser, tokenisation, prefix, and argument-map relationships

08. ModelClassDiagram

Current contact model and VersionedAddressBook inheritance

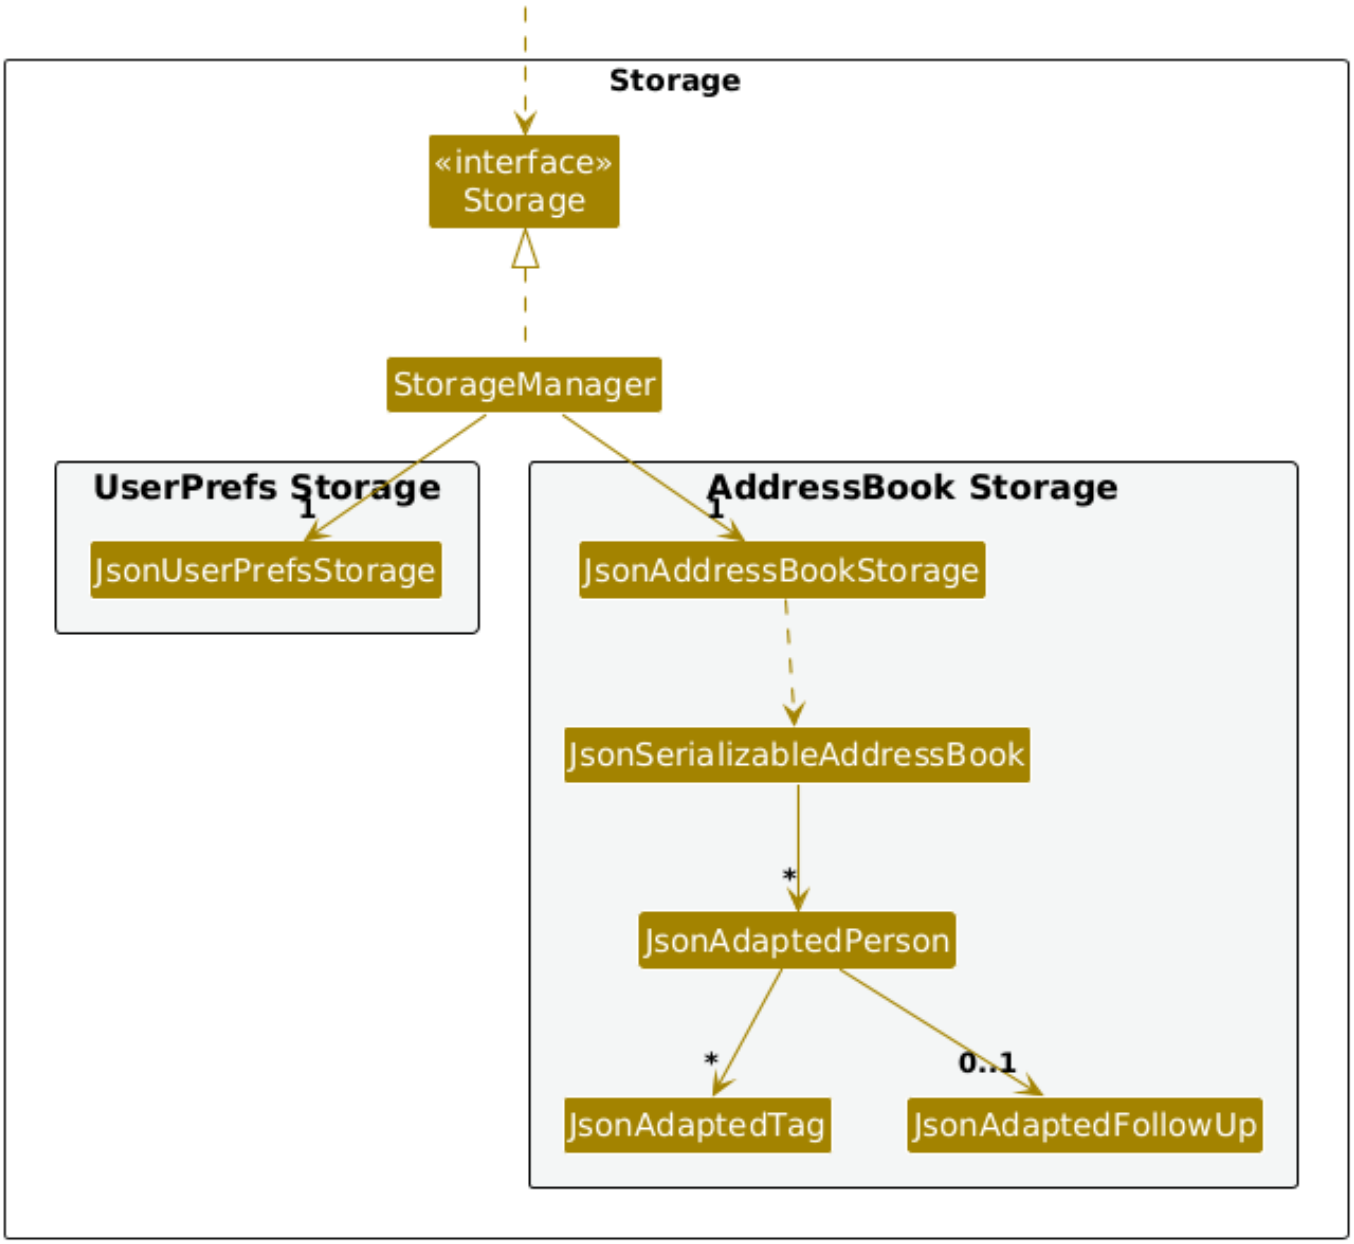

09. BetterModelClassDiagram

Proposed shared-tag model, not implemented in v1.6

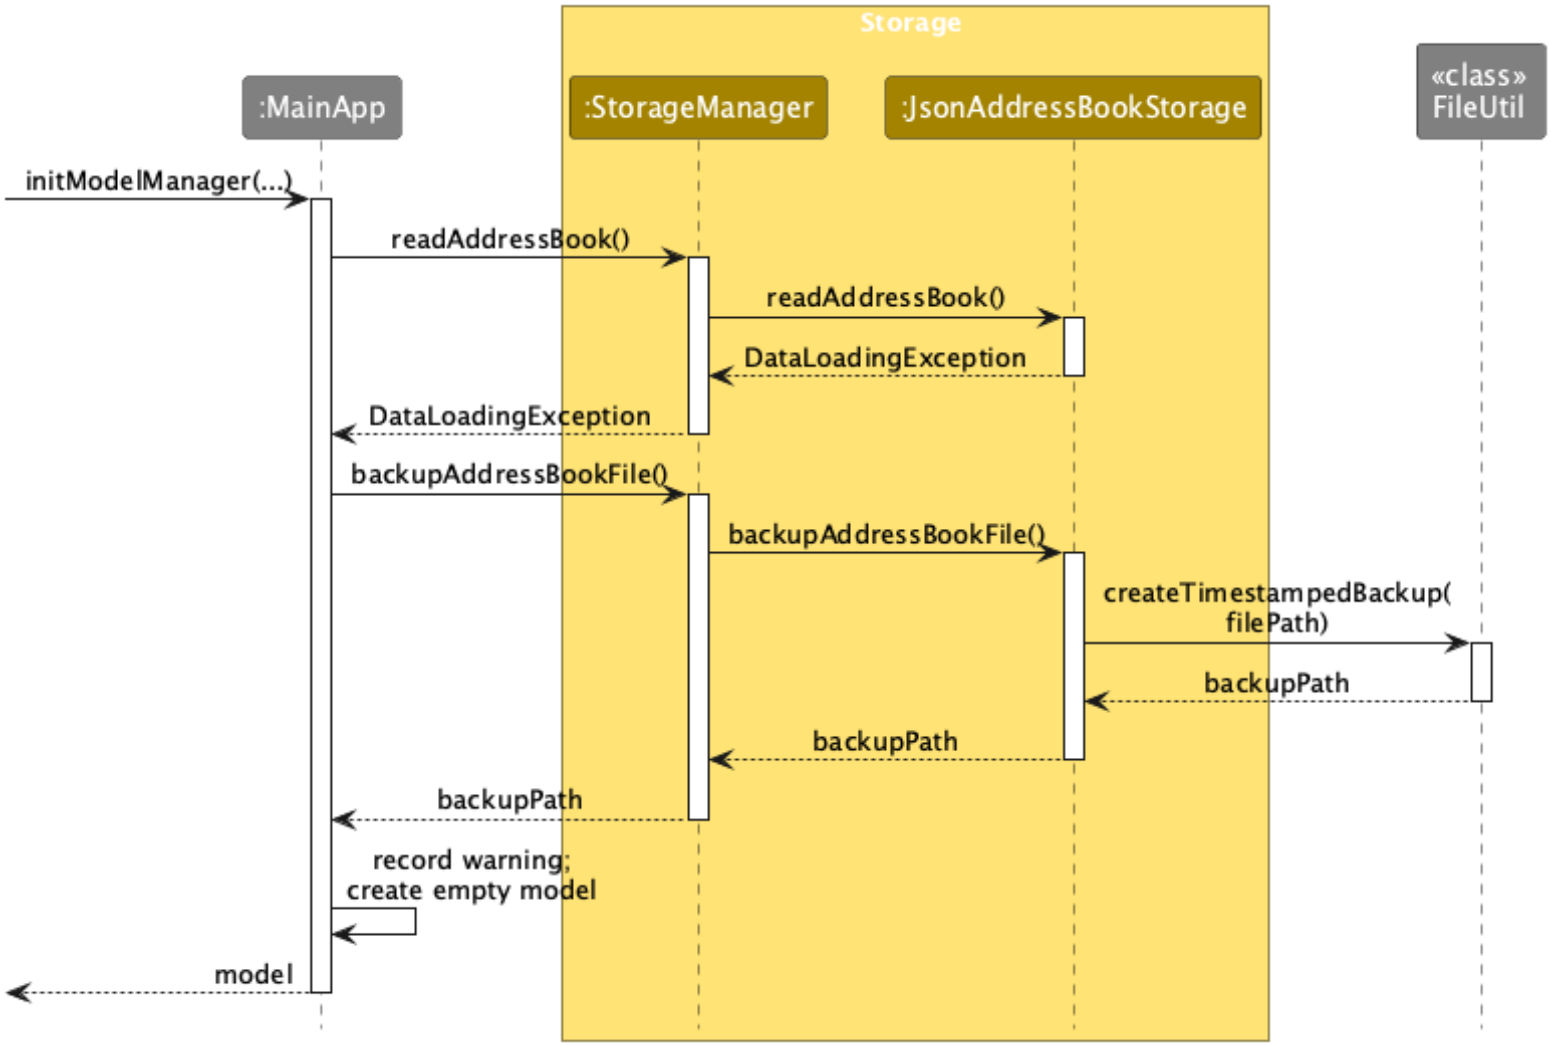

10. StorageClassDiagram

JSON storage delegation and contact-data adapters

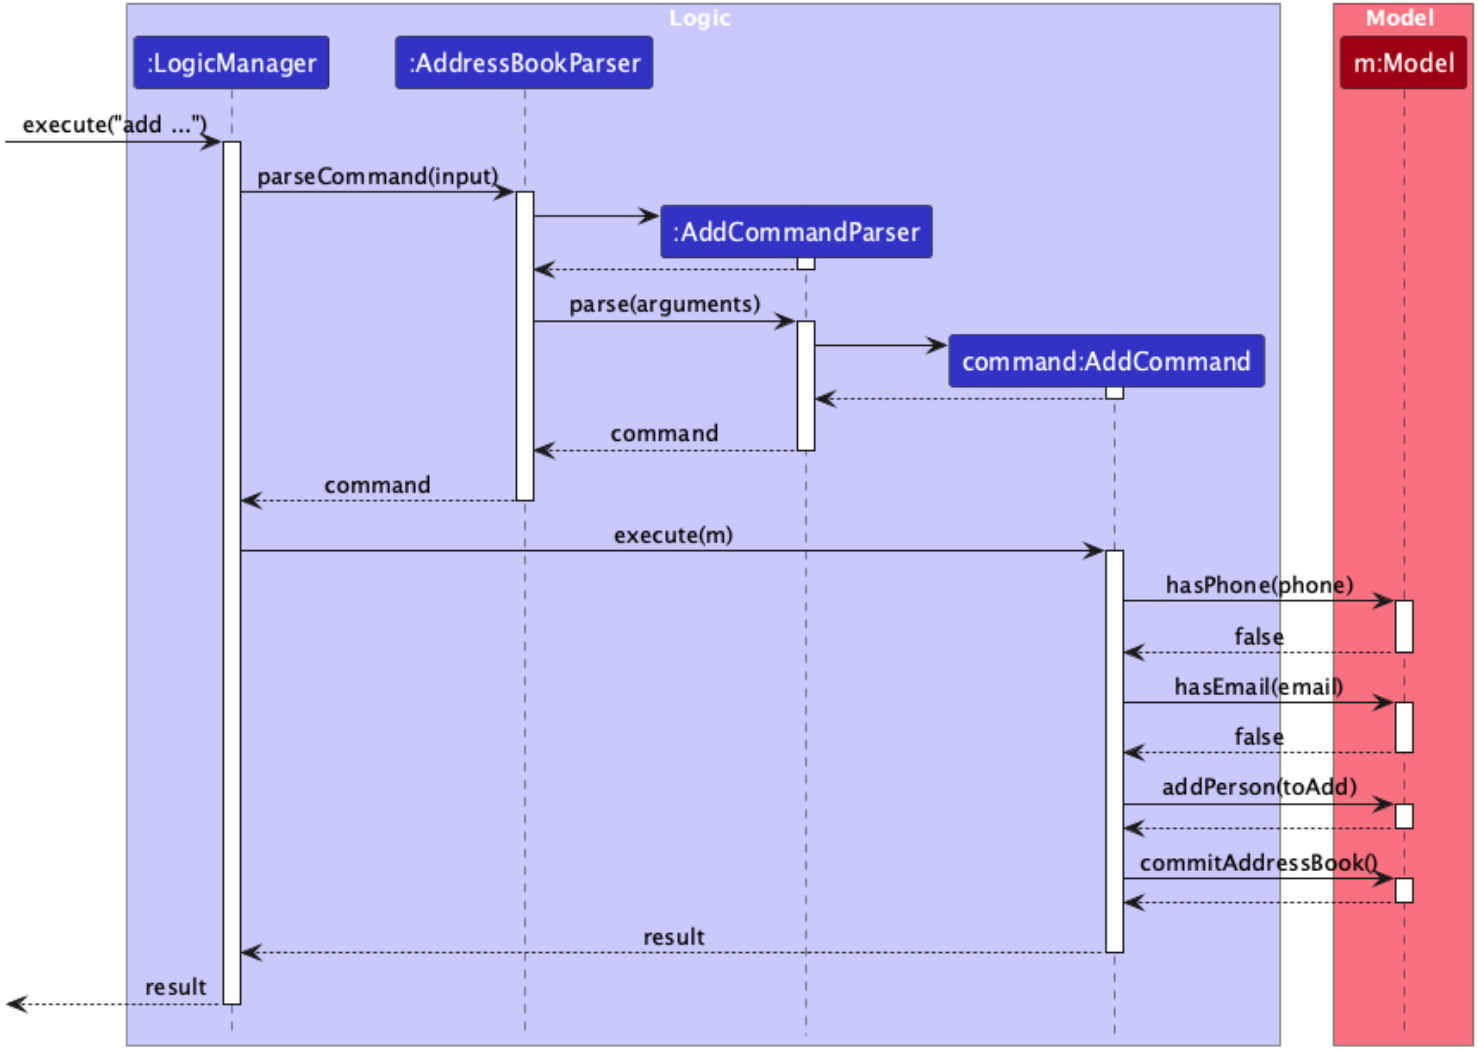

11. BackupCorruptedFileSequenceDiagram

Startup recovery when backing up an invalid contact file succeeds

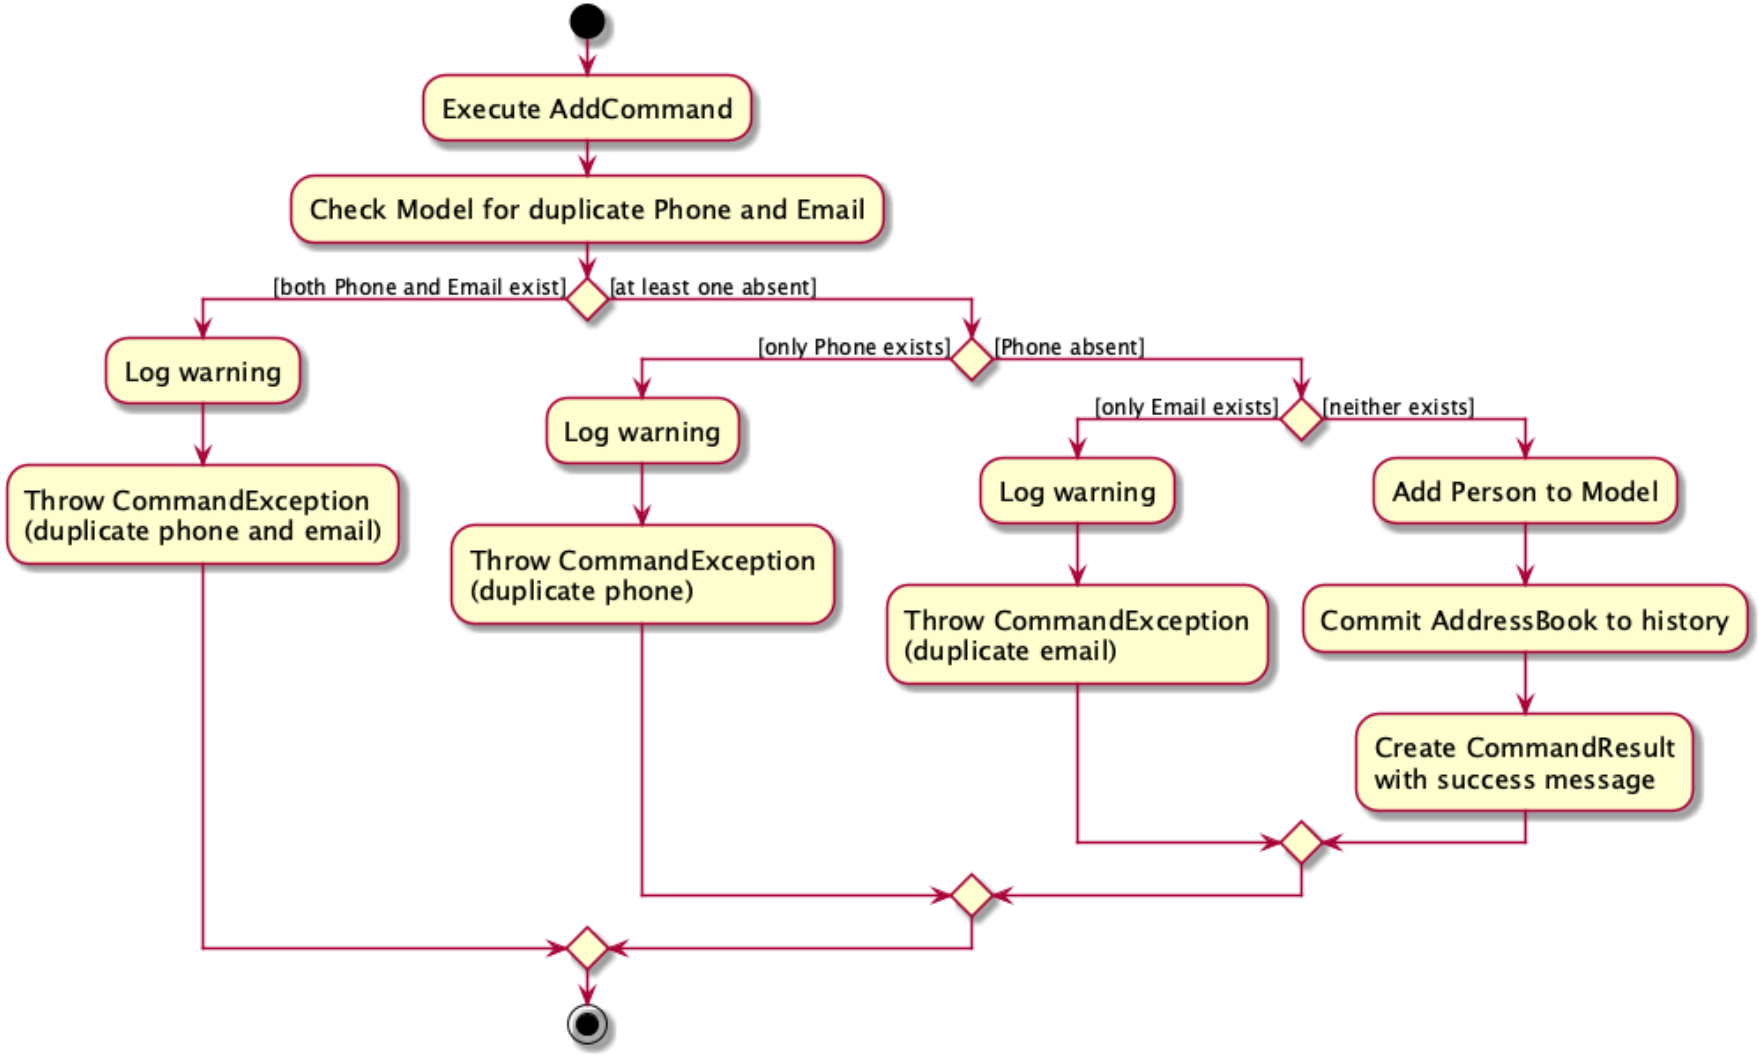

12. AddSequenceDiagram

Successful add parsing, uniqueness checks, and history commit

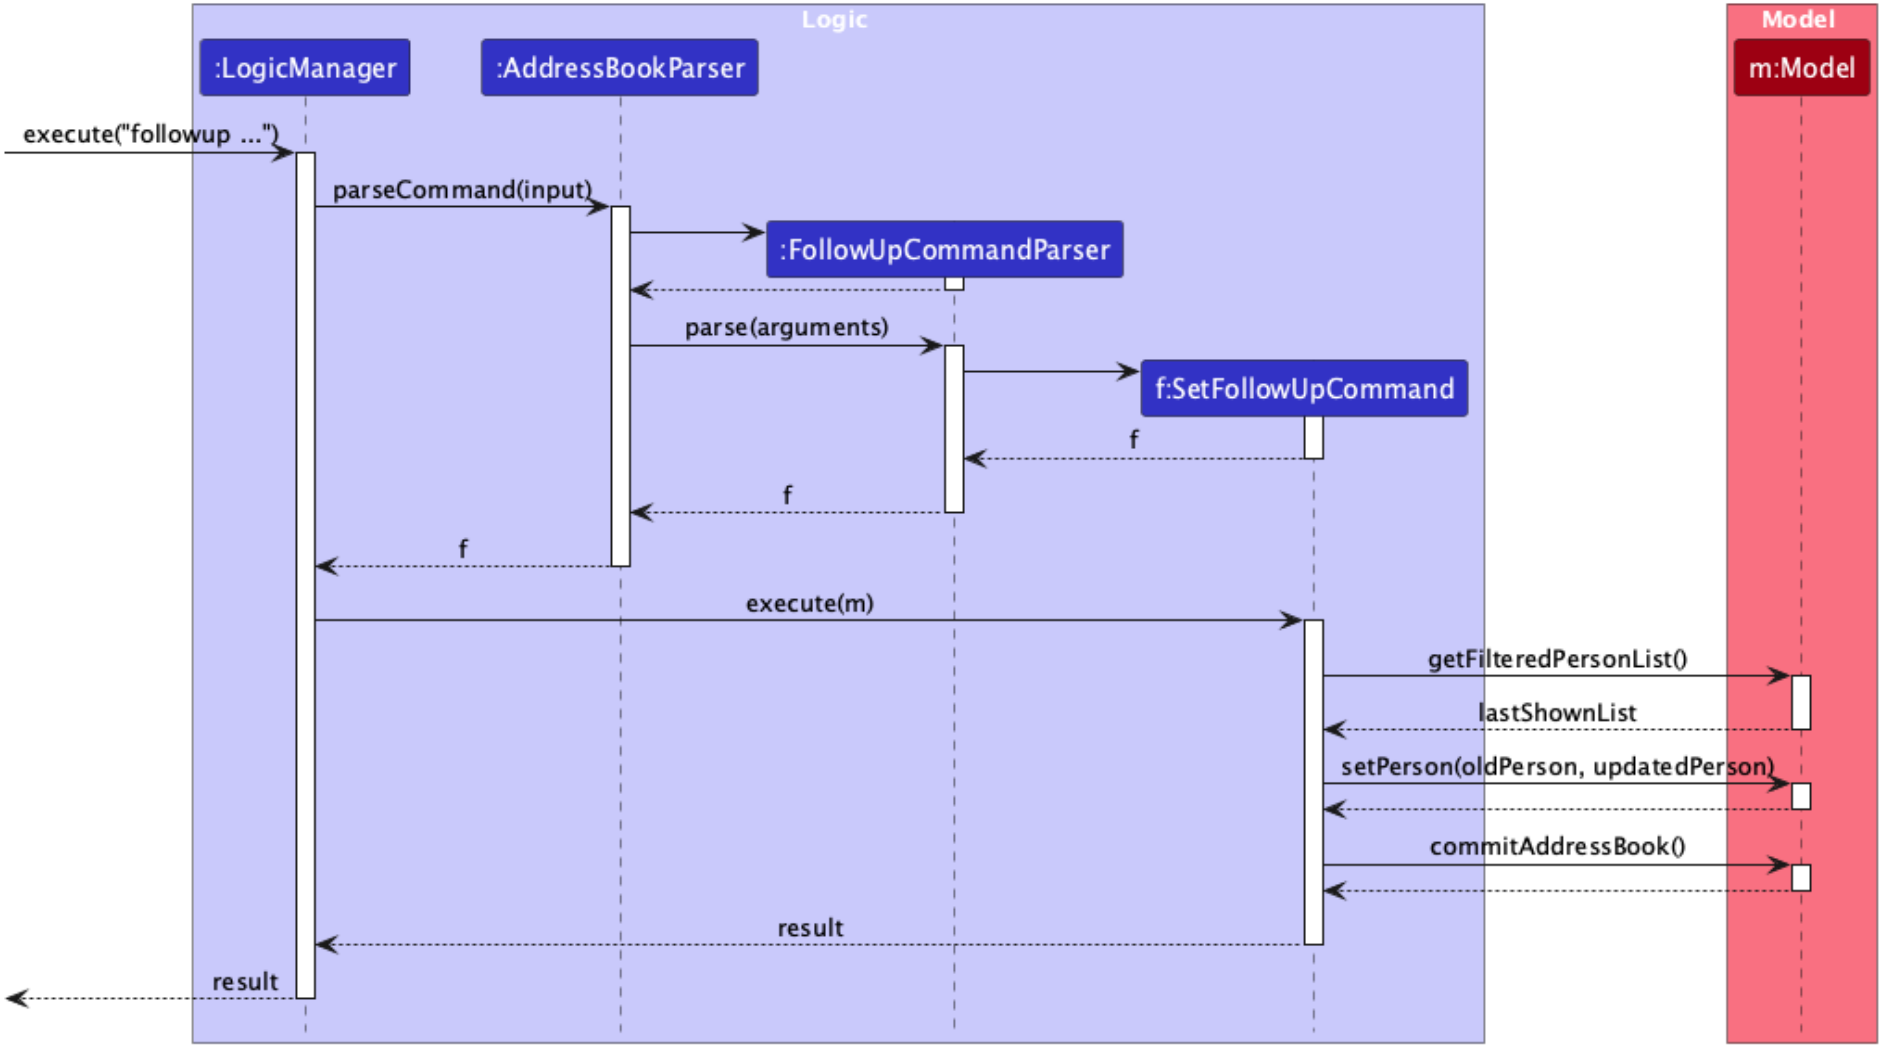

13. AddCommandActivityDiagram

Duplicate phone and email branches in AddCommand

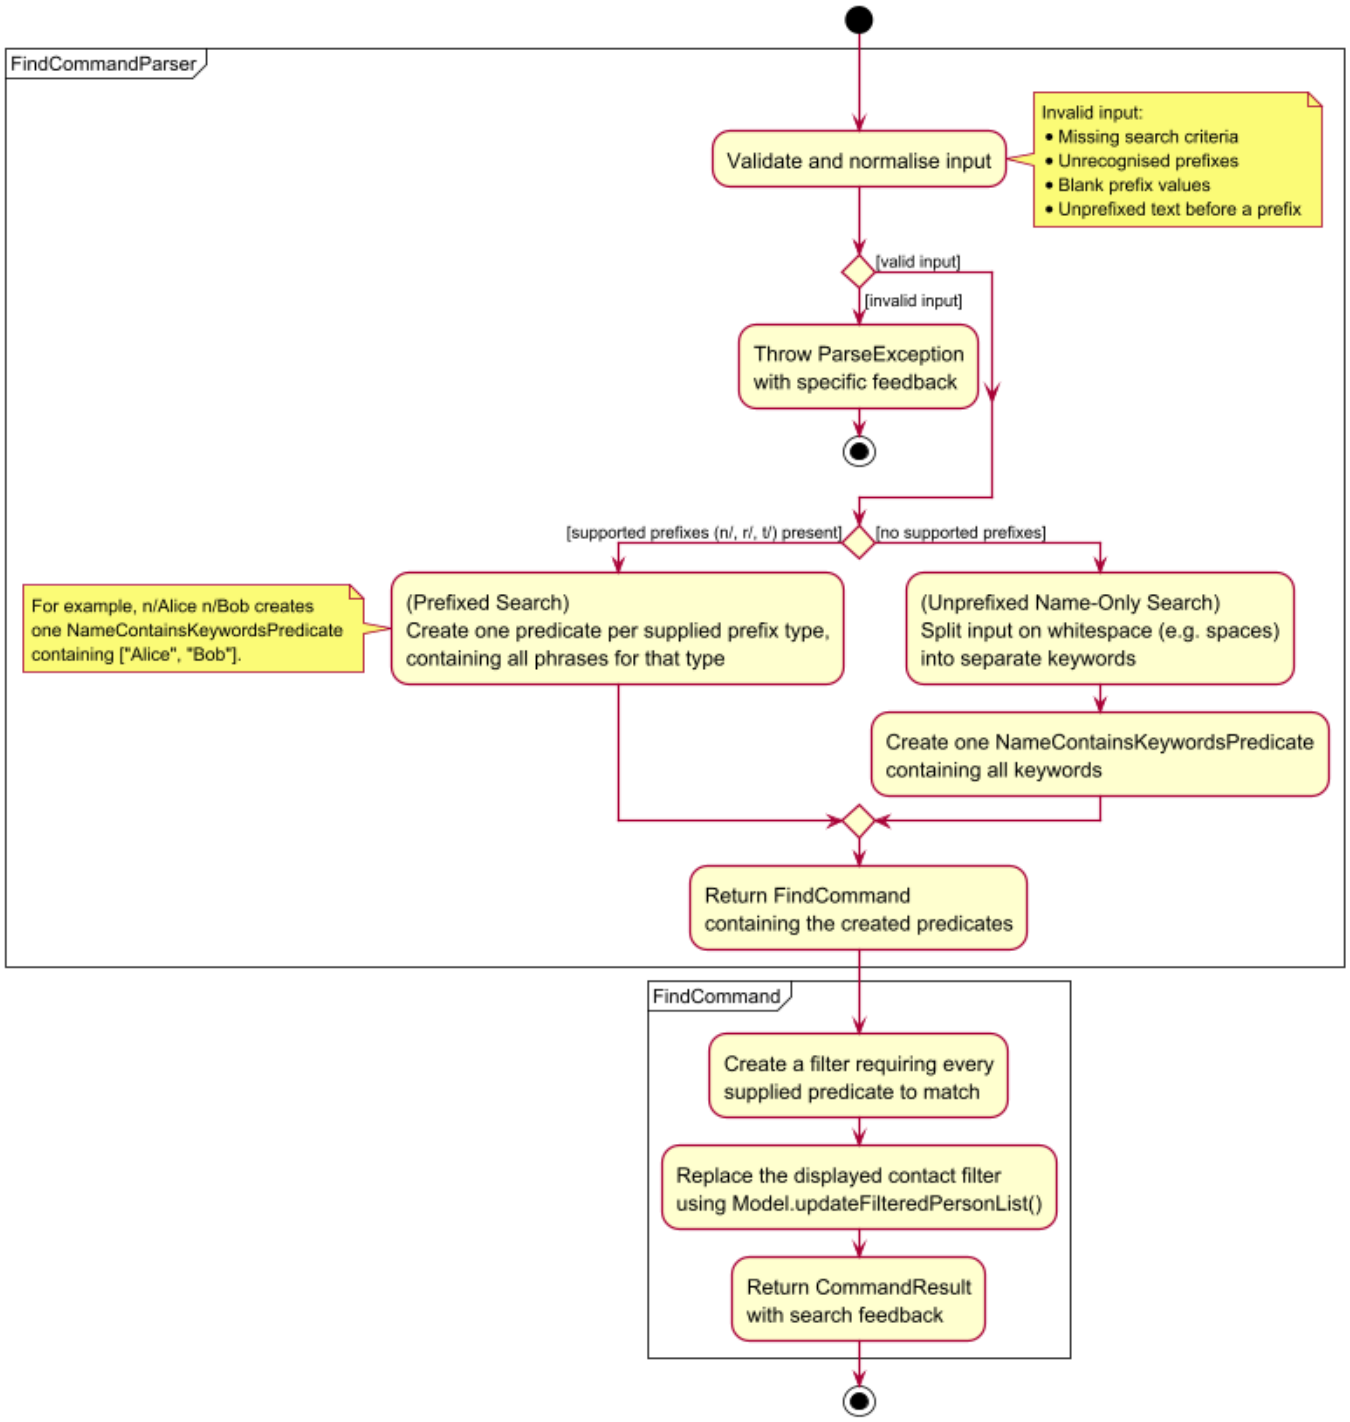

14. FollowUpSequenceDiagram

Setting a follow-up with a replacement contact and history commit

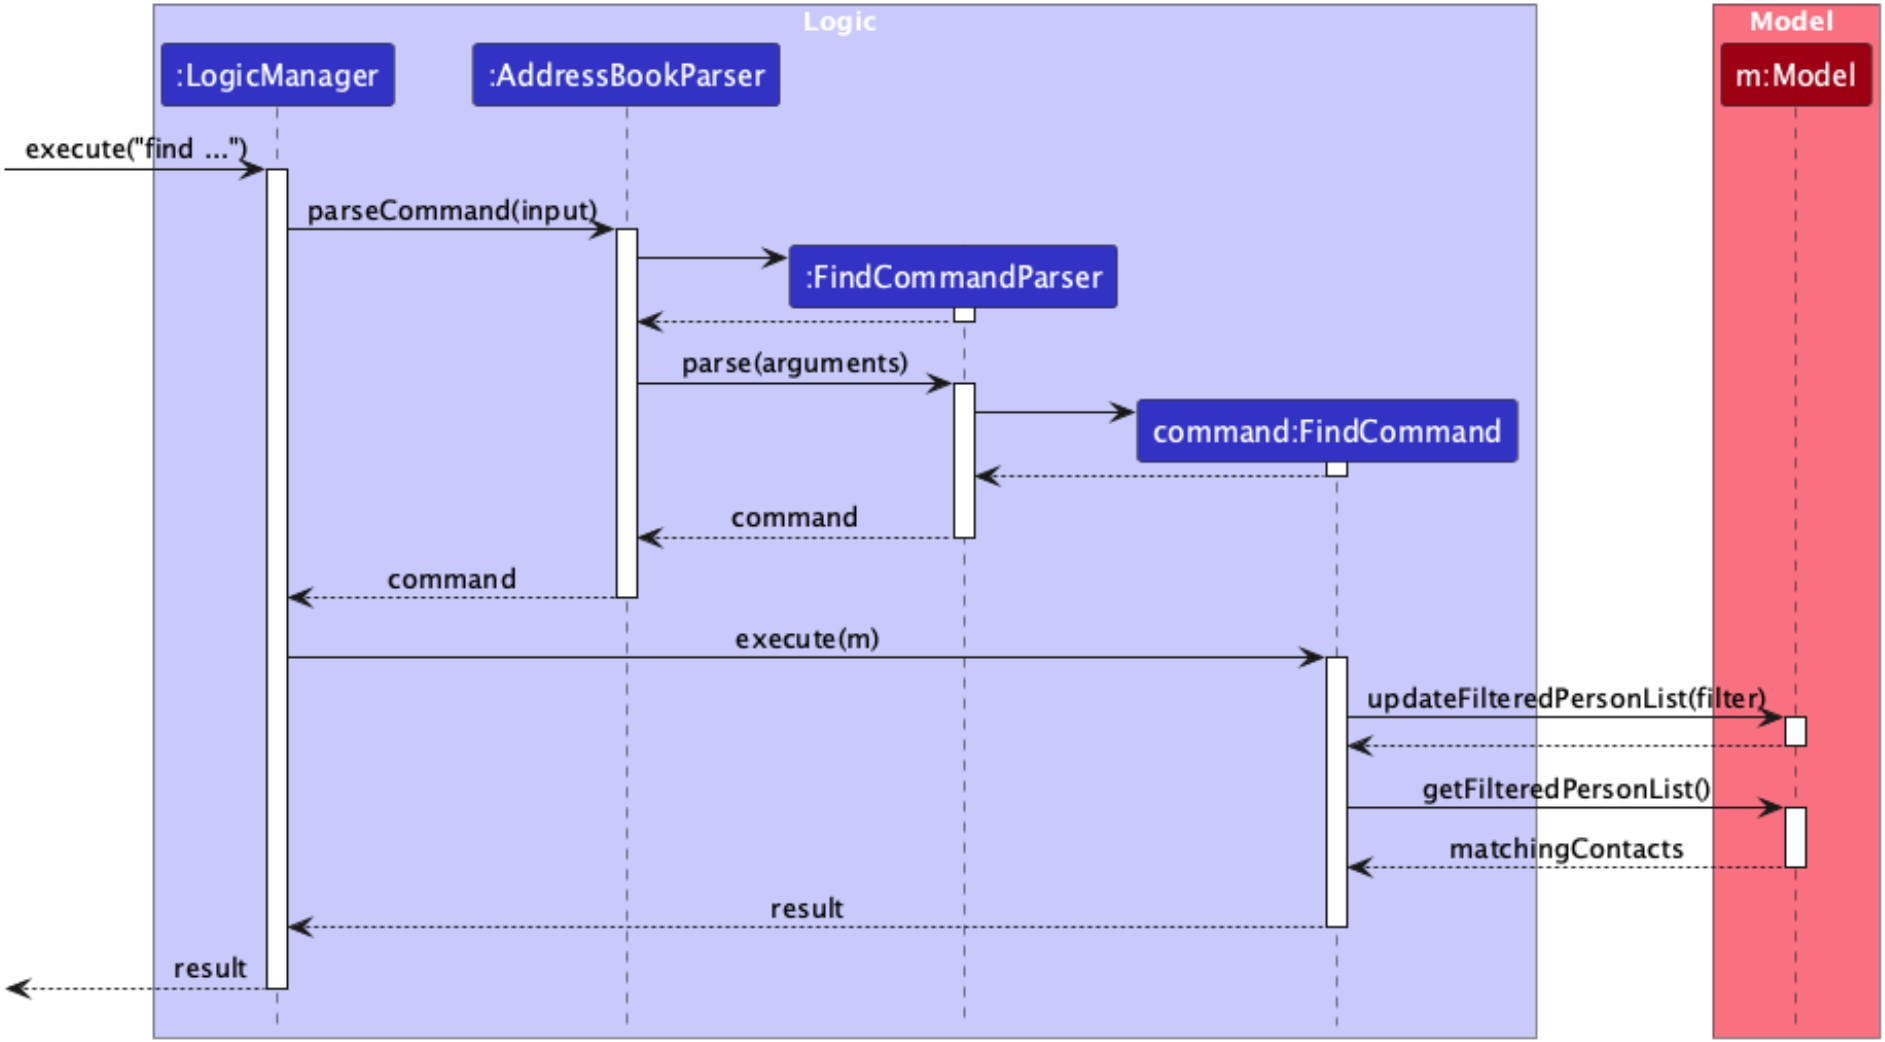

15. FindActivityDiagram

Find validation, predicate creation, and filter execution

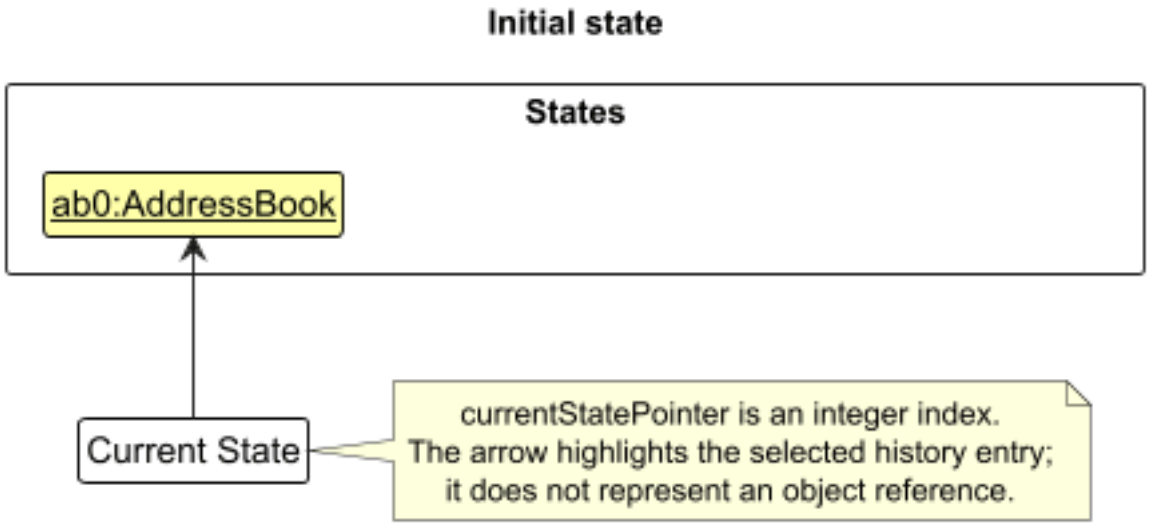

16. FindSequenceDiagram

Prefixed find parsing and replacement of the displayed filter

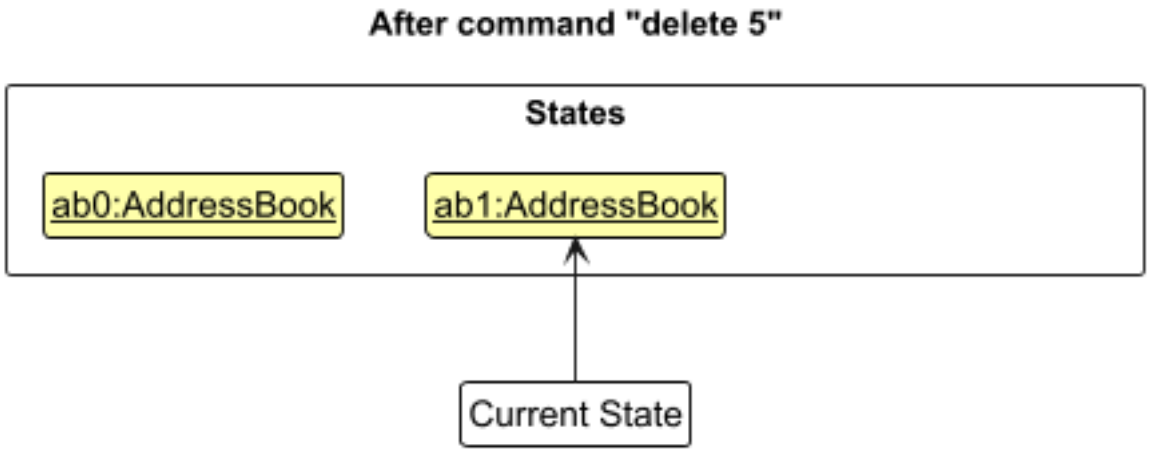

17. UndoRedoState0

Initial snapshot selected at history index 0

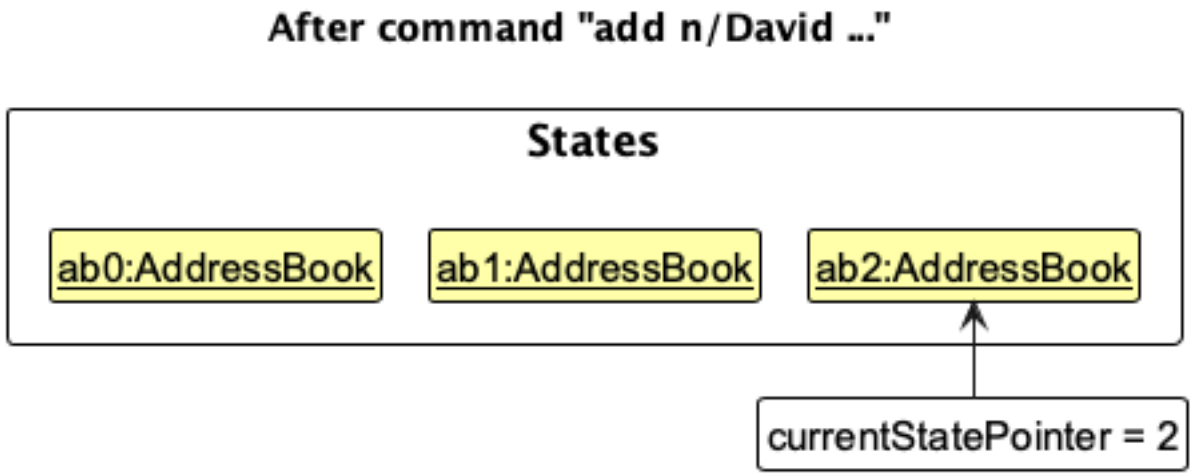

18. UndoRedoState1

Deletion snapshot selected at history index 1

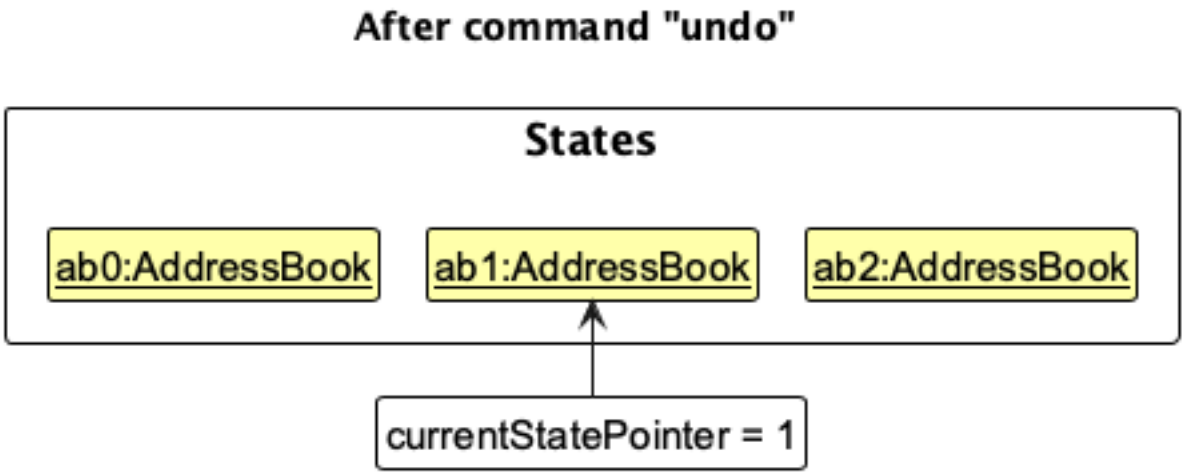

19. UndoRedoState2

Addition snapshot selected at history index 2

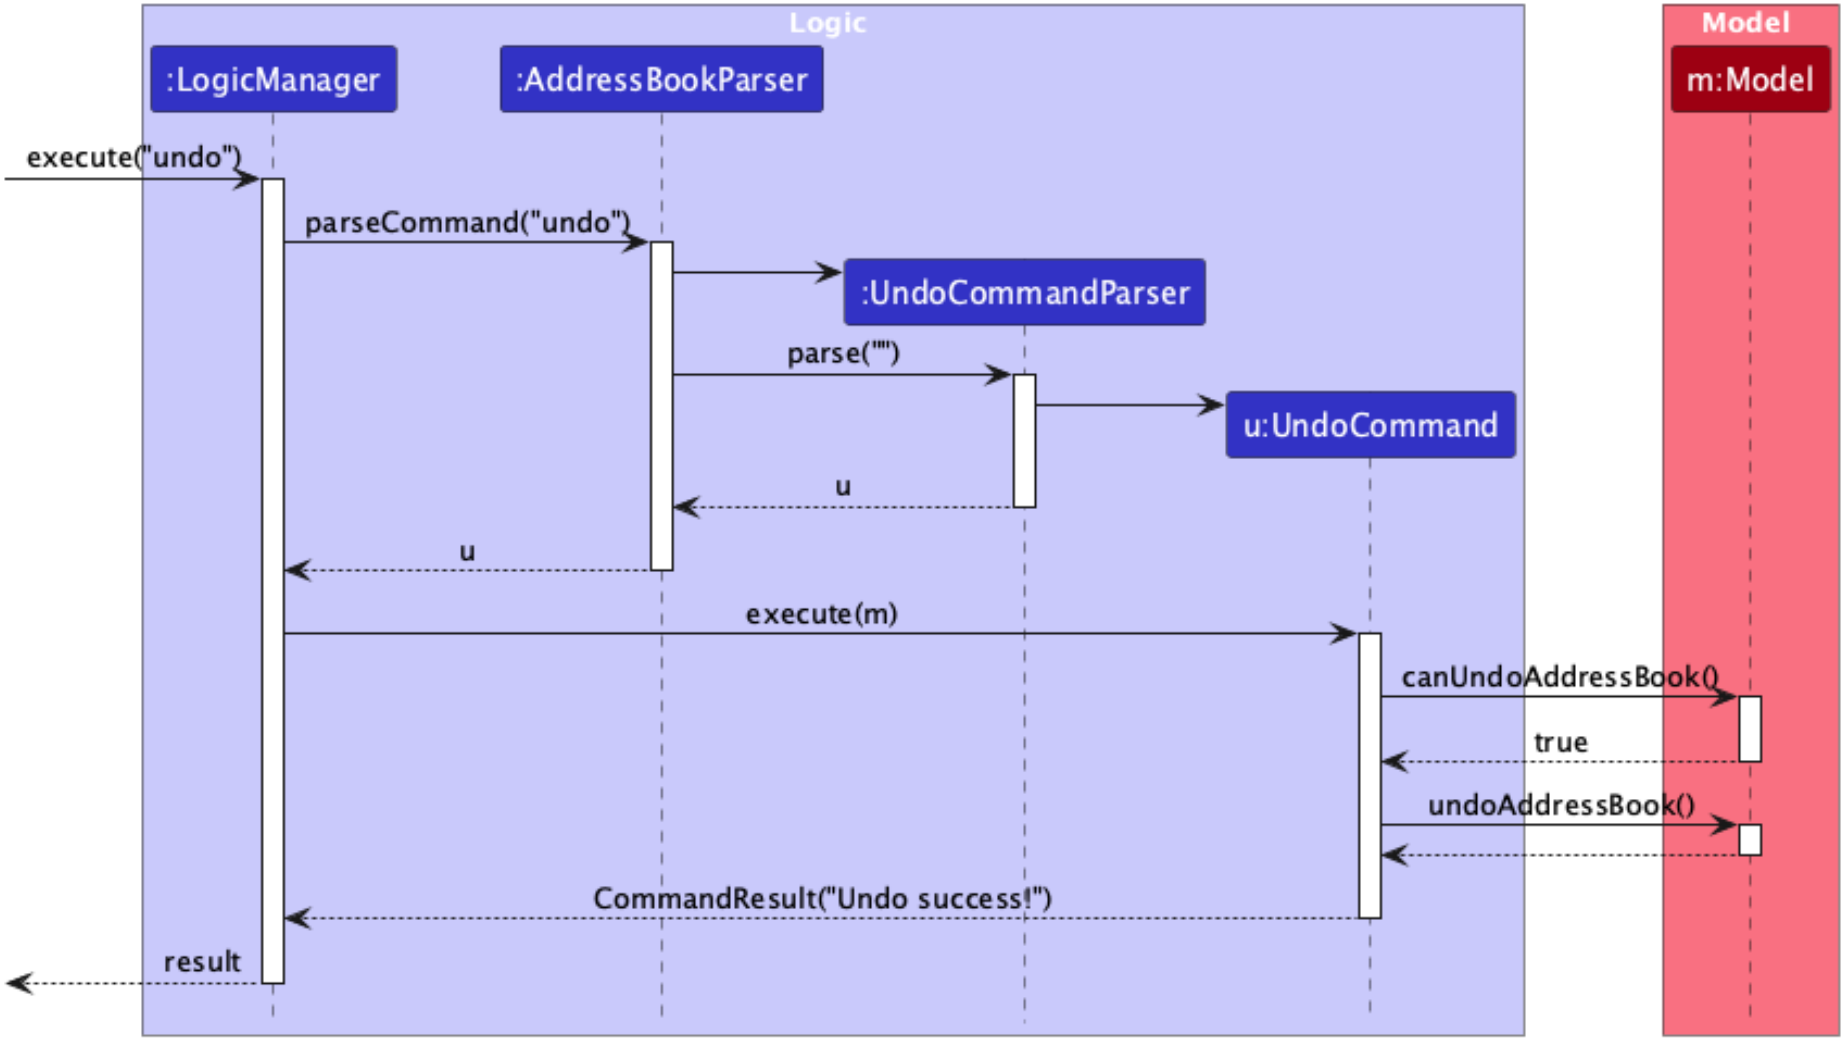

20. UndoRedoState3

Undo selects the earlier snapshot at history index 1

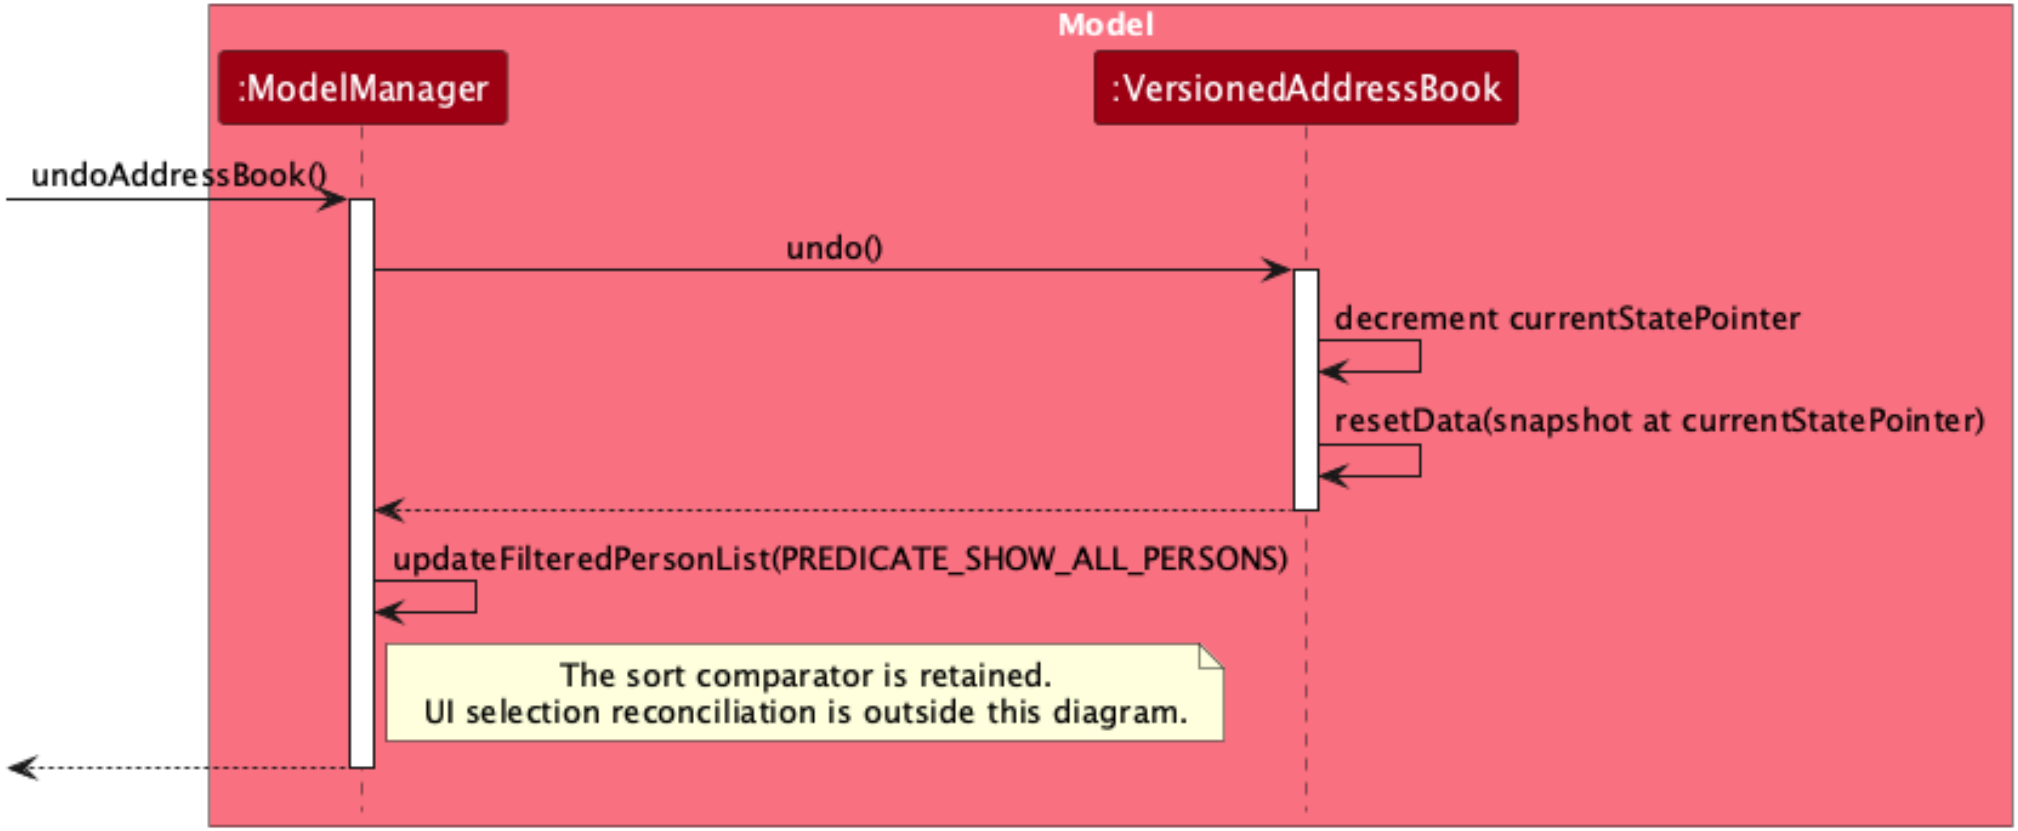

21. UndoSequenceDiagram-Logic

Undo parser, availability check, and command execution

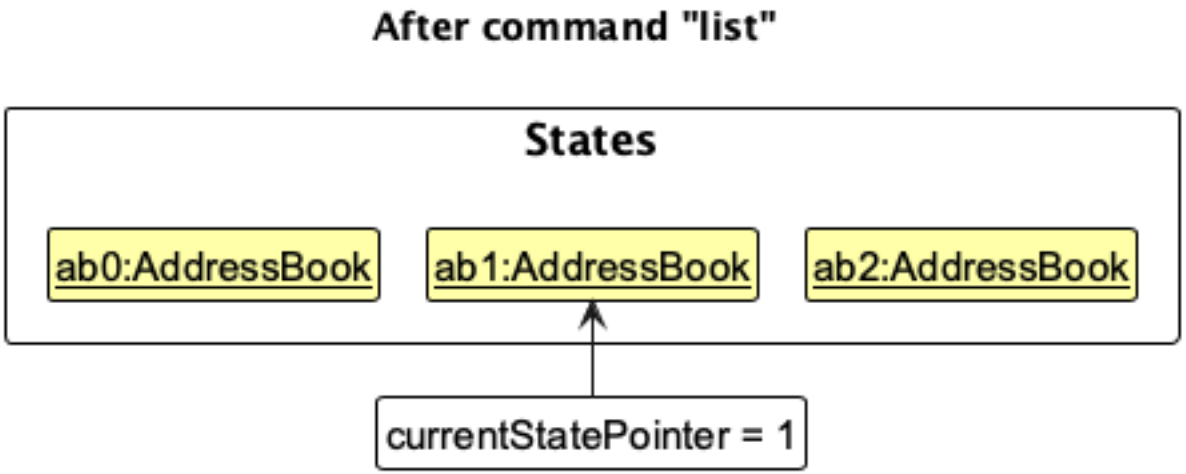

22. UndoSequenceDiagram-Model

Undo snapshot restore and displayed-filter reset

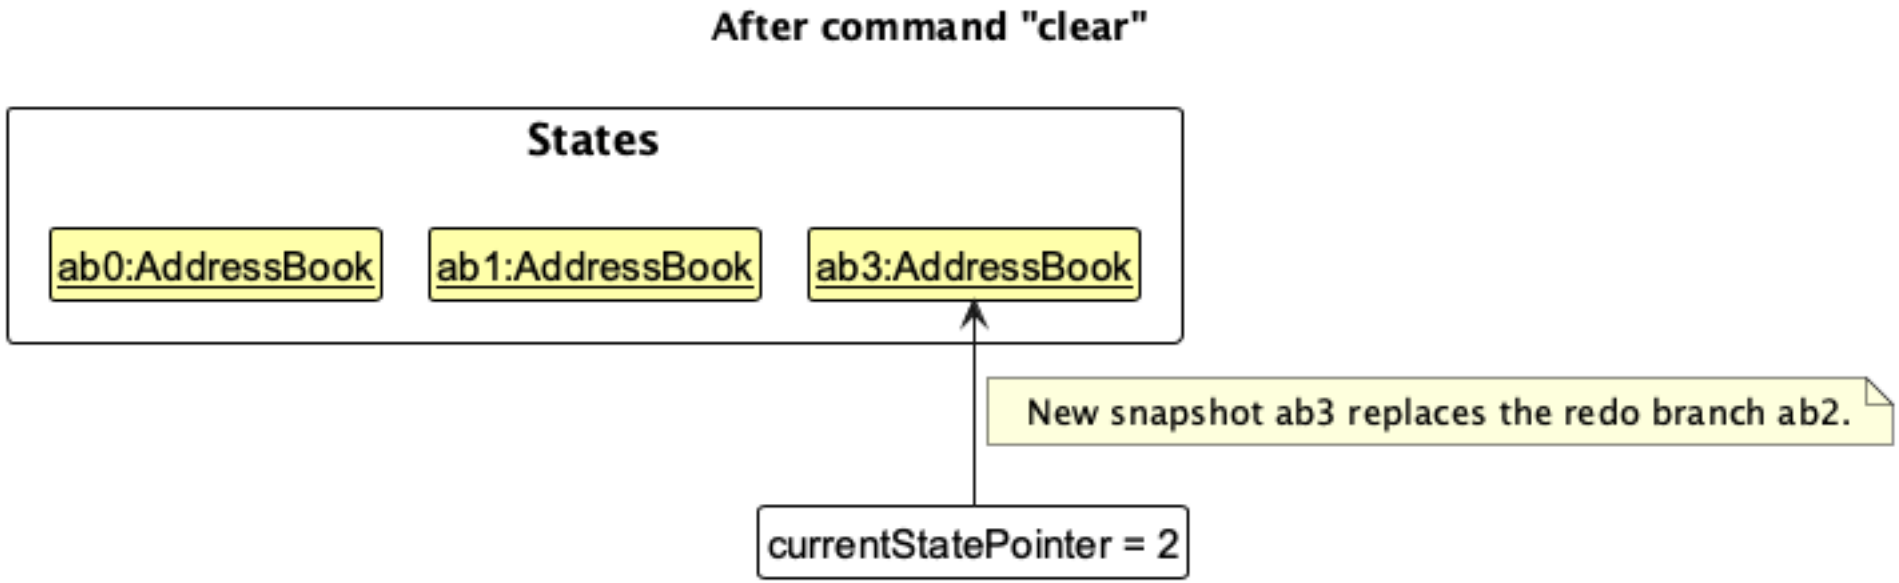

23. UndoRedoState4

List leaves the selected history snapshot unchanged

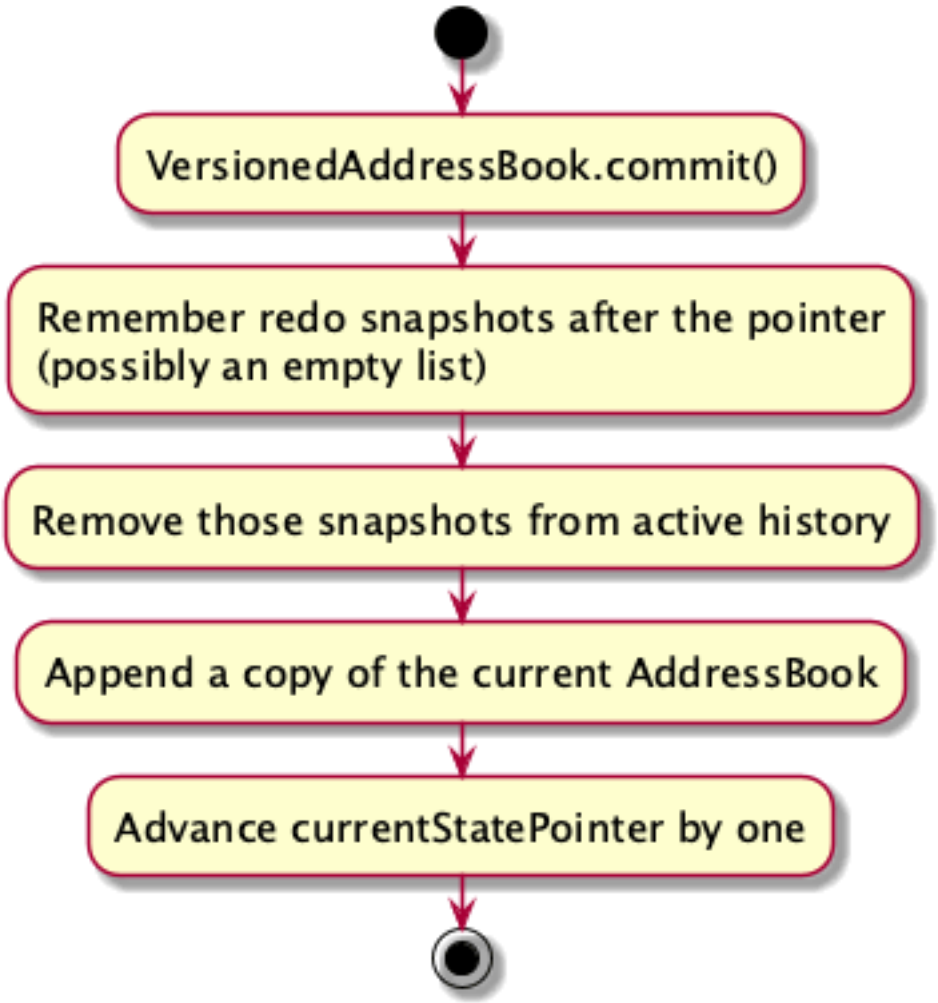

24. UndoRedoState5

Clear replaces the redo branch with a new snapshot

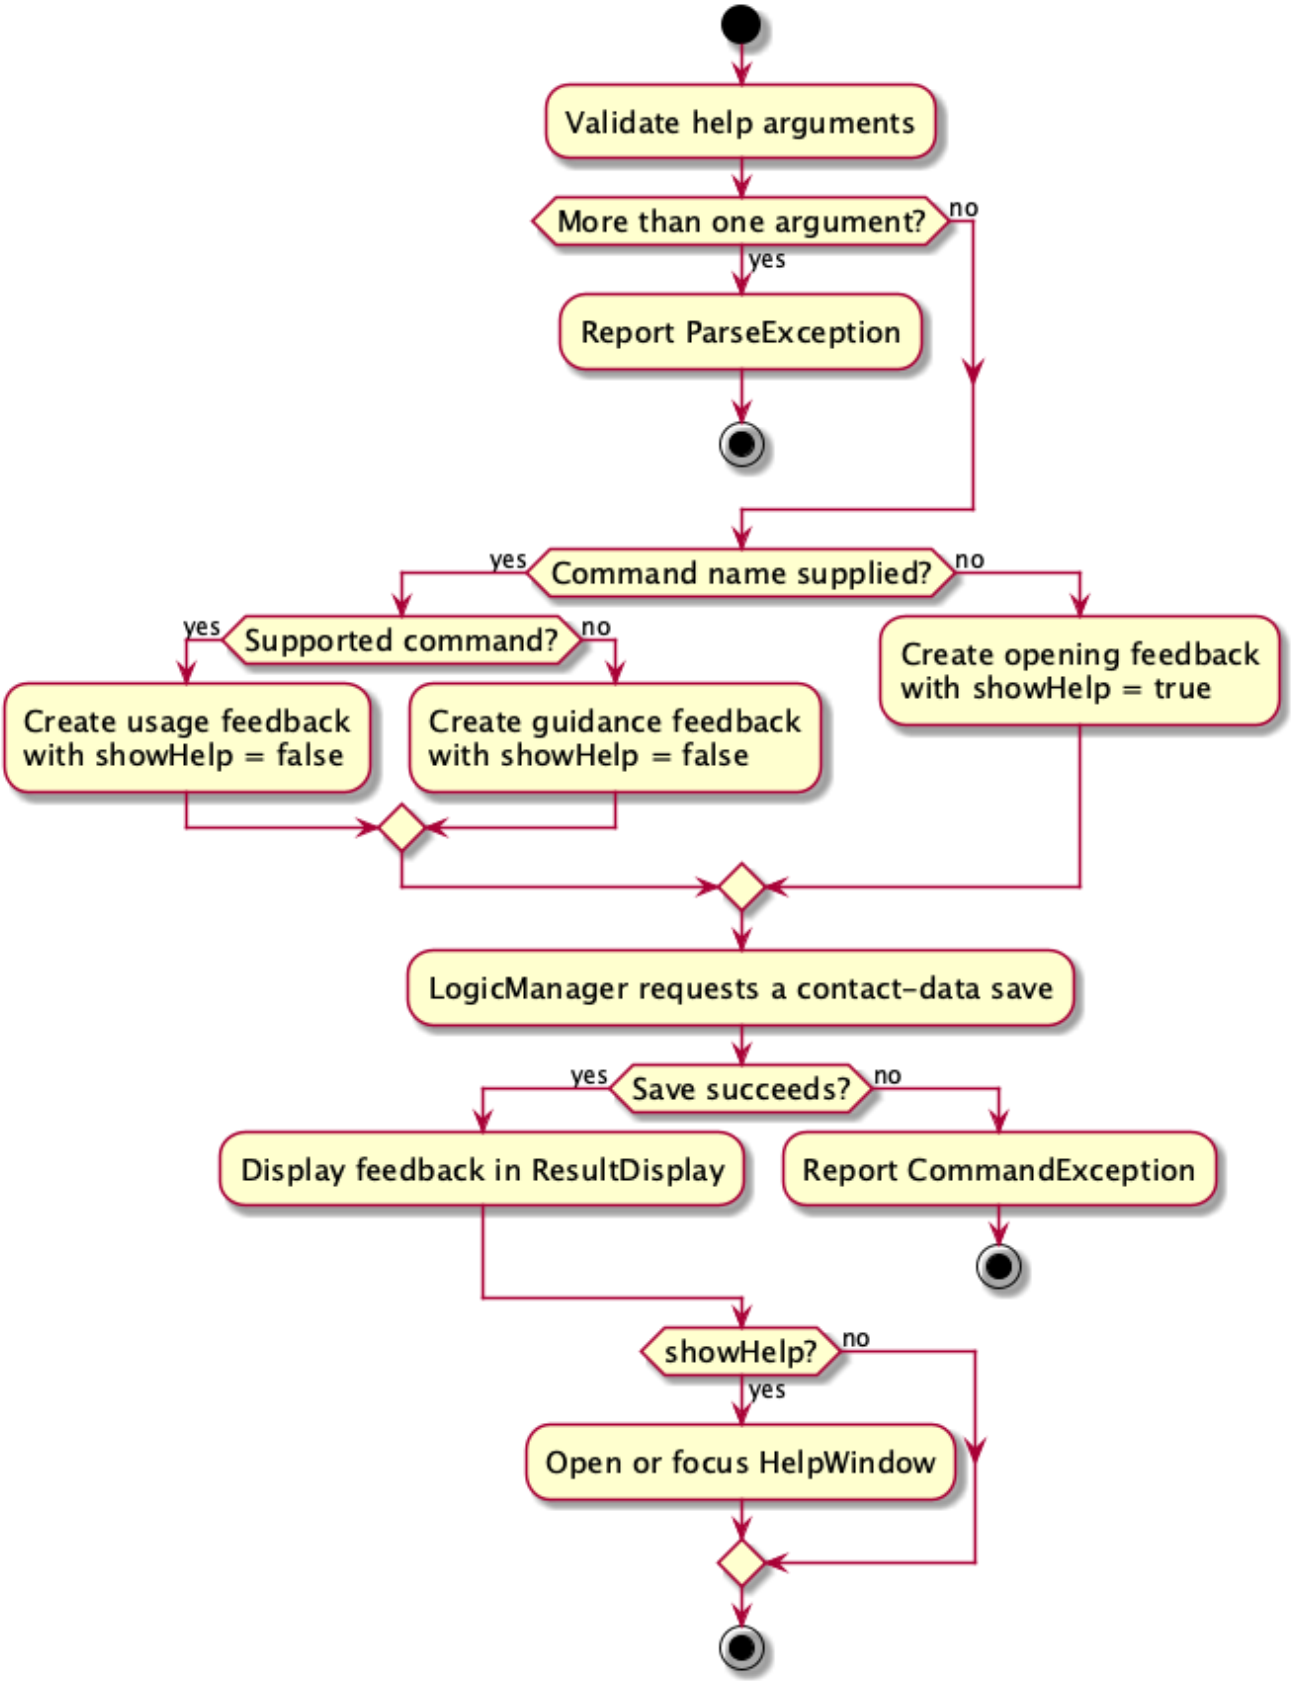

25. CommitActivityDiagram

Snapshot commit, displaced redo states, and history-pointer advance

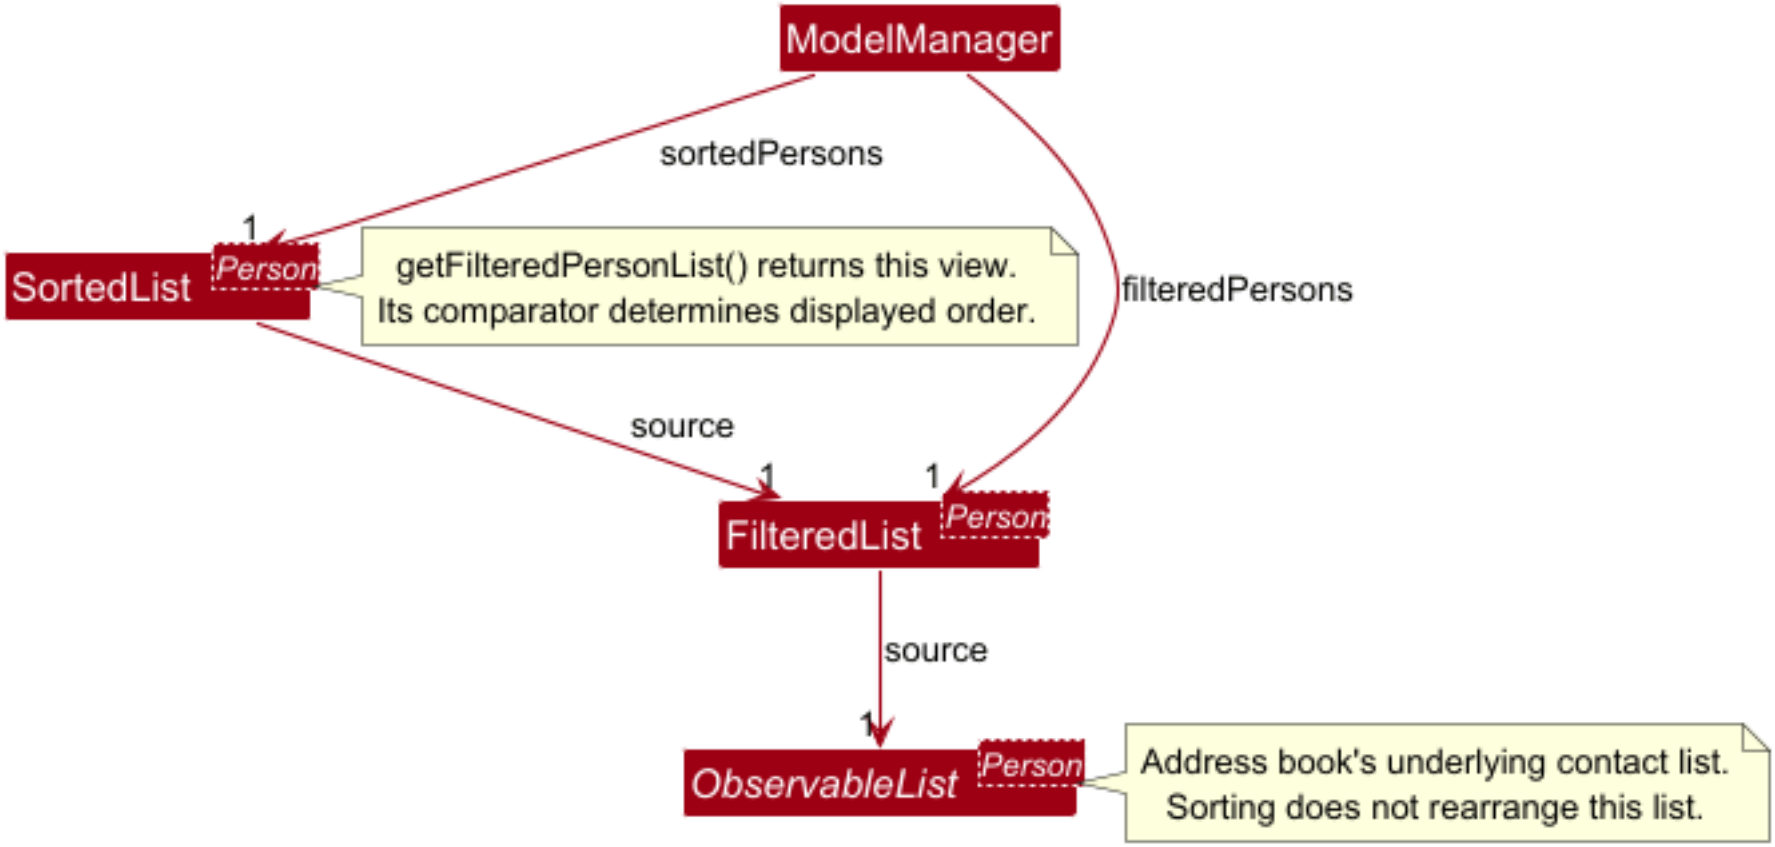

26. HelpActivityDiagram

Help validation, response, save request, and window handling

27. SortModelClassDiagram

Filtered and sorted contact views backed by the contact list

28. AtomicWriteSequenceDiagram

Successful contact-data save through a temporary file and atomic move
